

From your floor *to their front door.*

Your patients work hard to go home. We are there for both ends of the journey — extra hands on your floor, and a Safe Landing waiting when they leave.

WE ARE WITH YOUR PATIENTS WHEN...

They need more presence than the day allows

One-on-one sitters for fall risk, elopement, and behavioral support. Family- funded or per agreement.

Their families can't be at the bedside

Companionship hours, arranged by families — trusted presence in their place.

Your team is stretched

Credentialed W-2 caregivers, oriented to your policies. One simple staffing agreement.

AND WHEN THEY GO HOME —SAFE LANDING

1 in 5 seniors is readmitted within 30 days; the first 72 hours at home carry the highest fall risk.

Safe Landing receives your discharged patients:

- ✓ Home safety check
- ✓ Medication setup
- ✓ Discharge-instruction follow-through
- ✓ Personalized care plan
- ✓ Family updates throughout

HOW PARTNERSHIP WORKS

- 1 A short meeting**—your patients, your discharge flow, our model.
- 2 Agreements in writing**—staffing for the floor; referrals for discharges.
- 3 One point of contact**—a single Care Manager, start to finish.

18 years

of one-on-one senior care across Northern California, since 2008

First in the U.S.

to fully adopt the Montessori Method of Senior Care

Licensed HCO

California Department of Social Services

DISCIPLINE YOU CAN RELY ON

- ✓ Trained, insured, background-checked — held to your standards
- ✓ W-2 employees — never 1099 gig fill-ins
- ✓ Non-medical scope, held strictly
- ✓ One Care Manager as your single point of contact

WHAT THIS MEANS FOR YOUR FACILITY

- ✓ Patients supported — bedside to front door
- ✓ A discharge option that protects readmission numbers
- ✓ Relief without the agency roulette
- ✓ Simple agreements, clean invoicing
